

## urban space

ATCO Structures & Logistics Ltd. introduces **urban space**. High energy efficiency and high quality merge to form the ultimate in modular transportable building components. The building modules are manufactured in our facility to reduce costs and the site construction schedule, and to provide a visually appealing look and an efficient long lasting operational life.

### If it's part of a healthy community, we manufacture it:

- Condos, townhouses and senior's housing
- Medical / long-term care facilities
- Classrooms and cafeterias
- Recreational facilities
- Commercial / retail outlets

### Why ATCO?

- Long history of high quality products
- In-house design and manufacturing expertise
- We build environmentally responsible products designed to assist in attaining LEED certification

### ATCO Value:

- 60 years of modular experience
- Turnkey solution including design, manufacturing, transportation and installation
- Contemporary, custom designs
- Cost-effective to build
- Dedicated post-sales service
- 3-year ATCO Gold Warranty

*We utilize the latest design technology to maximize energy efficiency and extend the operational life of the modules.*

# urban space

## Engineering & Design Efficiencies

- Structural Insulated Panel (SIPs) technology to maximize building energy efficiencies
- Module size up to 24 feet wide with no centerline joint
- Solar lighting technologies adding LEED credits
- Energy modeling capability

## Operational Excellence

- Our global procurement program means we can guarantee a competitive manufacturing cost for all raw materials.
- We are ISO 9001:2000 registered and follow strict quality processes.
- With a skilled in-house design team, we can custom-build facilities and address our clients' unique requirements with ease and expertise.

## About ATCO Structures & Logistics Ltd:

ATCO Structures & Logistics Ltd. is an Alberta-based company with more than 60 years of experience and knowledge providing modular buildings. Our goal is to support a thriving community through building efficient and environmentally responsible facilities.

ATCO Structures & Logistics Ltd. is part of the ATCO Group of companies. ATCO Group is a diversified, Canadian-based, international group of companies with over \$9.8 billion worth of assets and approximately 7,700 employees worldwide.

Urban Space is a business line of ATCO Structures & Logistics Ltd.
